

Directions for Fakebook project. – **BE CREATIVE**

You must choose a “REAL” historical figure that lived in or influenced the United States between the years of 1960 – 1978. They may be, anyone that you would like to know more about.

Follow the Template that is saved. You must scour the internet/books in order to find out the Historical information, anything that you can not find out, feel free to embellish as long as it could be historically accurate and APPROPRIATE.

The “general information”, “education” and “favorites” – find the info that you can. For the “favorites” section, see what you can come up with as you learn about the person. – these can be humorous or serious – which ever you choose.

The “status update” – should have a historical fact of which the person was involved – be it a “fun” update.

The “groups” section – think about what the person you chose would be into – and create 2 groups that they would have been a part of. (1 must be serious, and 1 can be humorous)

For the “friends” section – as you do your research, find 6 individuals that they would have been “friends” with. They could be co-workers, other people that did what they did etc. You must put their photo with their name.

For the “about me section – again research your person and place accurate information in the section

The “Wall” posts. Find 6 events that your person was involved in or a part of, and then find 6 individuals that would have talked with them about those events, and make them your wall posts. Each post must be in a separate text box and have a **photo** of the person making the statement and the “date” of the statement.

For the “we’re related” section – you must have 3 **photos** of people they are related to and how they are related.

**\*\*This is meant to be both a fun and learning project. These will be printed off and put into a binder so that they can be shared with other students. You have three days to finish these, which is why I want them to be “ACCURATE” and FUN!!!.\*\*\***
